Published on Apr 26, 2017

Betty demonstrates how to make a Frozen Peach Daiquiri. This is an icy drink that is flavored with rum, lime, and peaches.

## Frozen Peach Daiquiri

3 ounces light rum  
2 tablespoons lime juice  
½ cup sliced frozen peaches, thawed  
3 tablespoons syrup from frozen peaches  
1 cup finely crushed ice  
lime slices and maraschino cherries, for garnish (optional)

Place all ingredients in an electric blender. Pulse blender for about 5 seconds, leaving some ice shavings in blended mixture. Pour into cocktail glasses and garnish top of glasses as desired. Serve and enjoy! (If you find this a little tart, sweeten with a little honey or sugar.) --Betty :)
