

Betty's Chocolate Ice Cream Sandwich Cake Recipe

Uploaded on Sep 12, 2009

In this video, Betty demonstrates how to make a scrumptious Chocolate ice Cream Sandwich Cake. Filled with ice cream sandwich bars, Oreo cookie chunks, hot fudge topping, chocolate pudding mix, and bound together with whipped topping, this dessert is as luscious as you can find!

Ingredients:

½ cup hot fudge ice cream topping, at room temperature
16 oz. container whipped topping
1 small package chocolate pudding mix
8 Oreo cookies, cut into chunks
12 chocolate ice cream sandwich bars

Choose your serving dish before assembling this dessert. In a large mixing bowl, combine 8 oz. whipped topping with ½ cup hot fudge ice cream topping. Mix in 1 small package chocolate pudding mix and 8 chunked Oreo cookies. On the serving dish, place 4 ice cream sandwiches, right next to each other and centered in the serving dish. Spread with ½ of the whipped topping mixture. Repeat this process to get a second layer of 4 ice cream sandwiches, topped by the remaining whipped topping mixture. Top this off with 4 more ice cream sandwiches. Quickly spread the remaining 8 oz. whipped topping around the sides and over the top of the cake. Immediately place into the freezer for a quick freeze. When frozen sufficiently, cover with plastic wrap or aluminum foil and freeze for about 8 hours before serving. When ready to serve, remove the plastic wrap or foil and cut slices, 1 inch at a time, and place them on individual serving dishes. Just beautiful, and a great summer (what's left of it) treat!
