In this video, Betty demonstrates how to make Hot Butterscotch. This is a hot drink made from melted butterscotch chips and scalded milk and blended in a blender. It's fun to make and delicious to drink!

Ingredients (for a 6-oz. serving):

1 rounded $\frac{1}{4}$ cup measure butterscotch chips
6 oz. milk

Scald 6 oz. milk in a small pot on the stove over low heat. Do not boil. Meanwhile, place 1 rounded $\frac{1}{4}$ cup measure of butterscotch chips in the top of a double boiler and melt them, stirring occasionally. Place the scalded milk and the melted butterscotch chips in the glass bowl of a blender. Blend on a high setting, until the butterscotch is incorporated into the milk. Immediately pour into mugs or appropriate serving glasses. This drink is tasty and inviting, with a small layer of foam on top! Cheers! --Betty ☐
